

## FACTORIZATION – QUADRATIC EQUATIONS

### Exercise 3.6 – part2

Solve the following quadratic equations by factorization:

g)  $12 = 14x - x^2$

---

---

h)  $18x - x^2 = 3 + 2x$

---

---

i)  $\frac{1}{16} - x^2 = 8x^2$

---

---

j)  $3x^2 - 5 = 2(2x + 5)$

---

---
